About

A hard-working perfection driven designer with an eye for technical detail. I'm an eager learner who is always expanding their skill set. I specialise in UI/UX design which pairs with my ability to code front-end, however I'm strong in other areas of digital design.

Achievements

Unite For Ukraine @ NTU

Raised over £2650 for humanitarian relief efforts in Ukraine via the sales of A3-A5 posters that were printed via Risograph. I was a lead organiser in the group and handled printing and troubleshooting with the Risograph machine and also did photography for the event.

Best at Graphic Design

I was awarded Best at Graphic Design during my time at Stanmore College. I was also nominated for two other categories.

Experience

Lead Student Mentor

NTU

Sep. 2020 - Present

I talked to first year Graphic Design students on their projects on a regular basis and provided them with feedback from a student perspective and gave advice on topics such as studying and mental health. My promotion to Lead Mentor meant I would work much more closely with the staff team.

Digital Content Producer

Fresh Ego Kid

Jul. 2018

Internship for a London clothing company. I edited photos from their clothing photo shoots with Photoshop to ensure consistent photography and also made Instagram story advertisements using After Effects.

Branding Work

Air Con Team UK

2018

Design work for my stepfather's air conditioning company. I produced a logo, designed business cards and document templates.

Assistant Network Manager

Woodfield Schl.

Mar. 2016

1 week of work experience. Whilst I was there, I repaired and changed internal parts of desktop machines that needed repairing, did various administrative network/software operations and made Ethernet cables from scratch.

Education

Nottingham Trent University

Sep. 2019 - Jul. 2022 BA (Honours) Graphic Design
(pending)

Stanmore College

Sep. 2017 - Jul. 2019 (BTEC) Creative Media Production
(GCSE) English Language

Claremont High School Academy

Sep. 2011 - Jul. 2017 Attained 5 GCSEs
