ABOUT

A hard-working perfection driven designer and developer with an eye for technical detail. I'm an eager learner who is always expanding their skill set to push my work above and beyond. I specialise in UI/UX design which go hand in hand with my development skills and have strength in editorial and branding design.

ACHIEVEMENTS

Unite for Ukraine
Raised over £2650 for humanitarian relief efforts in Ukraine during the war via sales of A3-A5 posters that were printed via Risograph. I was a lead organiser in the group and handled printing and troubleshooting with the Risograph machine and also did photography for the event.

Best at Graphic Design
I was awarded Best at Graphic Design during my time at Stanmore College. I was also nominated for two other categories at the show.

SKILLS

Principles	Software

Inquisitive	Node
	Electron
	Express

EXPERIENCE

Jul. 2022 → Aug. 2022 — Melbourne, Derby
Digital Graduate Placement, The One Off
2-week placement in a live studio environment with The One Off Melbourne Digital Design team. I worked on way-finding and product finder experiences for Frasers Group brands as well as various concepting work.

Sep. 2020 → Apr. 2022 — Nottingham
[Lead] Student Mentor, Nottingham Trent University
Part time university role where I talked to 1st year Graphic Design students on their projects on a regular basis and provided them with design feedback from a student perspective & gave advice on topics such as studying and mental health. My promotion to Lead Mentor meant I would act as a bridge between staff & 90 mentors.

Jul. 2018 — Stanmore, London
Digital Content Producer, Fresh Ego Kid
Internship for a new London clothing company. I edited photos from their clothing photo shoots with Photoshop to ensure consistent photography and also made Instagram story advertisements using After Effects.

Mar. 2016 — Wembley, London
Assistant Network Manager, Woodfield School
1 week of work experience. Whilst I was there, I repaired and changed internal parts of desktop machines that needed service, did various administrative network/ software operations on a live school network and made Ethernet cables from scratch.
